PIA^oTONI

Nous concevons et fabriquons des **luminaires à déployer**.

Tous nos produits sont basés sur le même principe breveté. Ils sont livrés à plat et s'épanouiront comme par magie pour se transformer en luminaires. Nous combinons nouvelles technologies et savoir-faire artisanal pour proposer des pièces éco-conçues d'une grande précision tout en gardant la noblesse du bois et de ses imperfections.

Lampes à poser, suspensions, appliques, plafonniers, lampadaires ; PLATONI vous propose tout un univers qui se décline de la pièce numérotée à la pièce unique sur-mesure.

PLATONI designs and manufactures **lighting to deploy**.

All of our products are based on the same patented principle. They are delivered flat and will blossom as if by magic to become lighting fixtures. We combine new technologies and artisan know-how to offer eco-designed items with great precision all while respecting the nobleness of the wood as well as its imperfections.

Tabletop lamps, hanging lamps, appliques, ceiling lights, floor lamps... PLATONI provides a whole universe of options from numbered items to unique custom products.

“ Transformons la matière en lumière ”

“Let's turn matter into light”

LUMINAIRES À DÉPLOYER

LIGHTINGS TO DEPLOY

LIVRÉS SUR UN PLATEAU
HANDED ON A "PLATEAU"

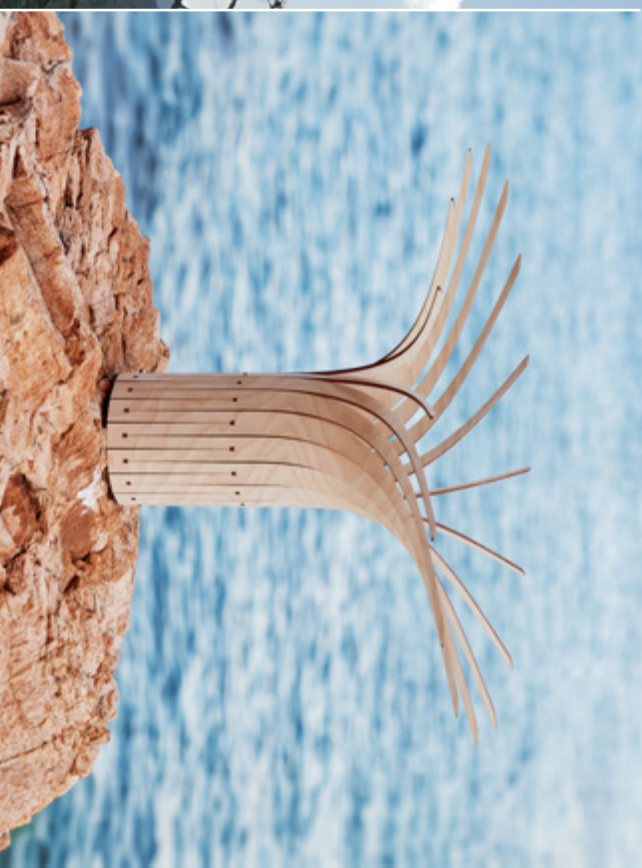

" Concept breveté de sculpture par anticipation "
" Patented concept of sculpture by anticipation "

*PLATONI veut dire "les plateaux géographiques"
Les plateaux de la PLATONI, sont nommés d'après les sommets d'un territoire qui nous inspire ...*

*PLATONI means "geographic plateaux"
Plateaux from PLATONI, are named after the summits of an inspiring territory ...*

PIATONI est la marque créée par le designer Corse, Jean-Luc Alfonsi, pour commercialiser les pièces en série de nos ateliers.

Avant de créer PIATONI, Jean-Luc enchaîne les expériences (formation d'ingénieur et de Design, expériences en bureau d'étude, agences de Design et d'innovation, fabrication numérique) pour petit à petit découvrir l'approche de création qui lui correspond.

C'est en amorçant un travail d'exploration sur la matière et ses comportements qu'il découvre un concept passionnant qui le touche particulièrement... au point de décider de s'investir totalement dans la découverte de ce monde inconnu.

La PIATONI devient ce monde d'espoir, à découvrir. Un monde qu'il conçoit à l'image de ses valeurs, guidé par la recherche de l'essentiel, inspiré par les mouvements de la nature, avec la volonté de partager la magie et les émotions qu'il croise sur son chemin.

Nous espérons sincèrement que nos luminaires vous transporteront, le temps d'une parenthèse, à destination de l'essentiel.

PIATONI is the brand created by the Corsican designer, Jean-Luc Alfonsi, to market the series pieces of our workshops.

Before creating PIATONI, Jean-Luc went through a series of experiences (engineering and Design training, experience in design offices, Design and innovation agencies, digital manufacturing) to gradually discover the creative approach that he matches.

It is by starting a work of exploration on matter and its behaviors that he discovers an exciting concept that particularly touches him... to the point of deciding to invest himself completely in the discovery of this unknown world.

PIATONI becomes this world of hope, waiting to be discovered. A world that he designs in the image of his values, guided by the search for the essential, inspired by the movements of nature, with the desire to share the magic and the emotions he encounters on his way.

We sincerely hope that our lights will transport you, for a break, to the essentials.

Concrètement, suite à nos découvertes, nous mettons en place, dans nos ateliers de Toulouse (France), une technique de ***Sculpture par anticipation*** pour laquelle nous obtenons un brevet Européen.

Au fur et à mesure de nos défis créatifs, nous développons notre propre savoir-faire.

Tout part d'un assemblage de feuilles de bois adapté à notre concept. Ces bois aux caractéristiques particulières sont fabriqués sur mesure.

Puis vient la recherche des courbes qui traceront les découpes de notre matière par assistance numérique.

S'en suit le travail de finitions pour passer d'un bois brut à une pièce préparée pour maximiser les reflets, sur laquelle s'appliquent peinture et huile de protection sans COV.

Nous protégeons ensuite nos « plateau » dans des coffrets adaptés pour vous livrer ces pièces à plat.

Chacune de nos pièces est travaillée et contrôlée avec beaucoup d'attention, en se projetant déjà sur l'expérience que nous vous livrons sur un plateau.

Par cet acte, nous voulons vous partager nos découvertes en espérant vous reconnecter à la matière.

C'est ainsi, chez vous, que les sculptures se révéleront sous vos doigts, et que vous pourrez par vous-même transformer la matière en lumière.

In concrete terms, following our discoveries, we set up, in our workshops in Toulouse (France), a technique of ***Sculpture by anticipation*** for which we obtain a European patent.

As our creative challenges progress, we develop our own know-how.

It all starts with an assembly of wooden sheets adapted to our concept. These woods with special characteristics are made to measure.

Then comes the search for the curves that will trace the cuts of our material by digital assistance.

This is followed by the finishing work to move from raw wood to a piece prepared to maximize reflections, on which paint and VOC-free protective oil are applied.

We then protect our « plateau » in a suitable box to deliver this piece to you flat.

Each of our pieces is worked and checked with great attention, already projecting us on your experience that we want to deliver on a plate.

Through this act, we want to share our discoveries with you, hoping to reconnect you to matter.

It is thus, at home, that the sculptures will reveal themselves under your fingers, and that you will be able by yourself to transform matter into light.

Collection I MONTI

Lampes à Poser / Suspensions / Appliques / Plafonniers
Tabletop / Hanging / Appliques / Ceiling lights

La collection I MONTI est issue de notre première exploration du concept de Sculpture par anticipation.

The I MONTI collection is the result of our first exploration of the concept of Sculpture by anticipation.

On y retrouve tout un univers de pièces aériennes, dans une recherche de l'essentiel.

We find here a whole universe of aerial pieces, in a search for the essential.

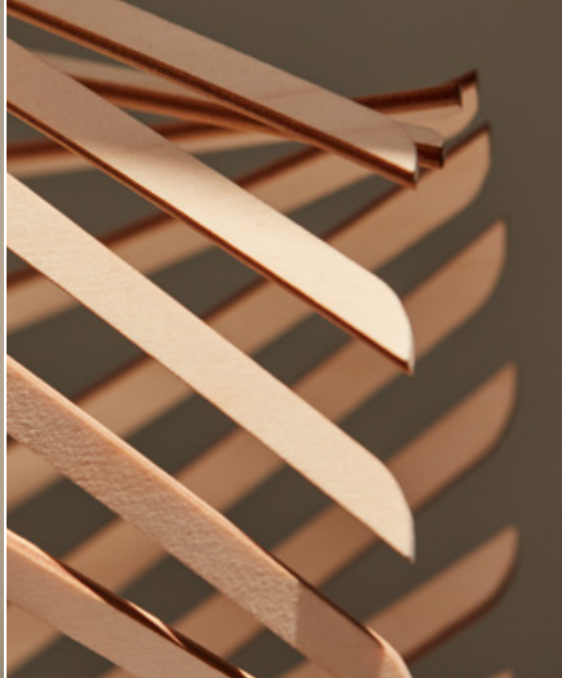

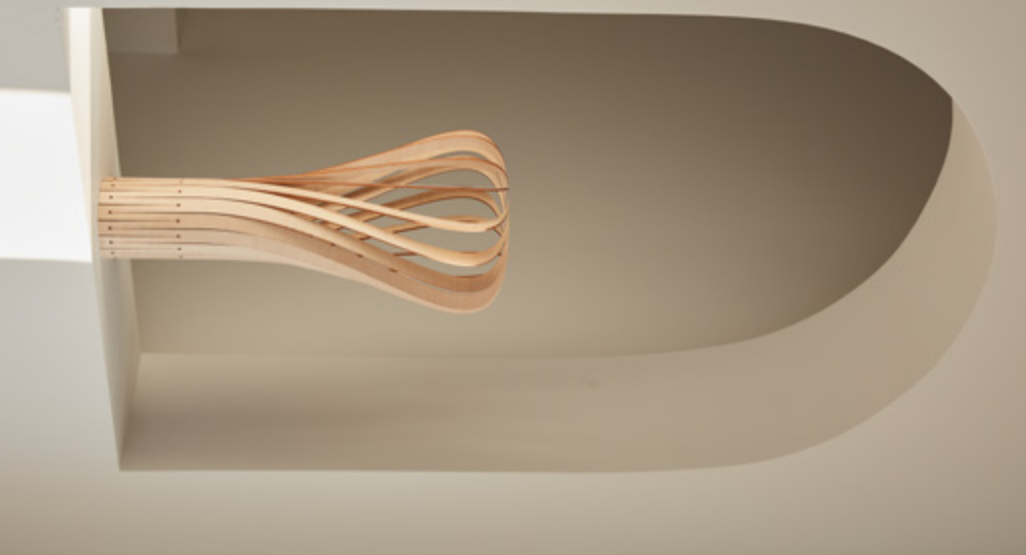

Bois - Wood :

Bouleau 3mm / Okoumé 6.5mm - Qualité supérieure - Finition à l'huile sans COV
Birch 0.12 in / Okoume 0.23 in - Superior quality - Oil without VOC Finish

Câbles - Cables :

À Poser : 1.8m - Tabletop Cable 70.8 in
Suspension : 1m - Hanging Cable : 39.4 in
Couleur Lin naturel pour Lampe Naturel ou Blanc - Natural linen color for Natural or White lamp
Couleur noire pour Lampe Noire - Black color for Black lamp

PIATONI Studio

Un projet sur mesure ?

Créateurs, explorateurs de nature, nous adorons relever des défis et cherchons en permanence à repousser les frontières de notre savoir-faire.

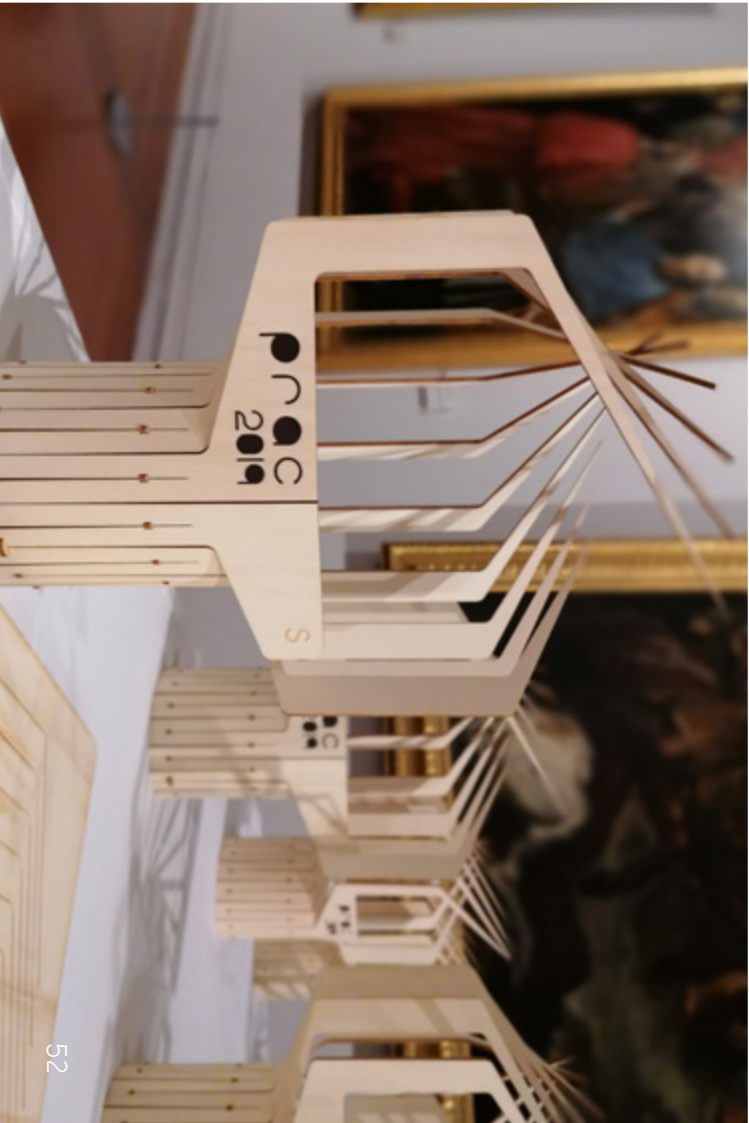

Pour votre projet, nous mettrons à votre disposition notre studio de création de manière à pouvoir vous offrir une expérience de conception unique qui aboutira sur une pièce à votre image, signée PIATONI Studio.

A custom project ?

Creators, nature explorers, we love to take up challenges and constantly seek to push back the boundaries of our know-how.

For your project, we will put our design studio at your disposal so that we can offer you a unique design experience that will result in a piece that reflects your image, signed PIATONI Studio.
